

The World of Wheat

from time to time, remorselessly at down the farmers' fields of wheat. In 1922, after several years of distressing drought, Manitoba and Saskatchewan had the promise, at last, of a bumper crop. Thirty, forty and fifty bushels to the acre were the words on everyone's lips. Alas! the crop crept in and the fine promise of a bountiful crop became a mockery. The horn of plenty was ruthlessly snatched from the very grasp of the expectant farmer.

Mr. H. Littlejohn, of Arnaud, Manitoba, however, had a crop of 200 bushels to the acre.

... a new rust-resistant variety, under development since 1907 by the

The following factors have tended to raise the price:—Intensive demand

The following factors have tended to raise the price: International

Some certain European countries continue unabated to export surplus considerably behind schedule—wheat crop in Orient. Exported wheat behind schedule—drought has reduced rice crop in France. Rice crop in Siam—rice surplus for export estimated in five years.

Some certain European countries have tended to lower price. Favorable wheat harvest in the United States—winter wheat belt. Beneficial rains occur in Australia. Wheat crop in Argentina—wheat crop in Egyptian corn yields above average—favorable rains assure good cereal harvest in Palestine—U.S.A. total wheat acreage may be 65 million.

TENNIS TALK

The 1937 Tennis Season got into full swing last Wednesday, which is a full three weeks earlier than usual. The Courts have been put into spin by the weather. The weather is so good that the players who get out to limber up each night, the season should be a most successful one.

Some certain European countries have been laid to plant a few of liacs along the east side of the Courts. They are being produced.

BANK OF CANADA REPORT

Try as we may, the conclusion cannot be escaped that the framers of the Bank of Canada report on the finances of the Province wrote it with their tongues in their cheeks.

Following investigations in Manitoba and Saskatchewan, the Bank's official recommended temporary financial assistance to the two sister Provinces in substantial sums.

Premier Aberhart requested a similar investigation on behalf of this province. He knew, as well as we do, that Alberta's financial situation is worse than that of the other two Prairie Provinces, in fact, almost desperate.

Without a doubt the Premier concluded that if that could be proved, then it must naturally follow that this Province would be equally entitled to temporary assistance. In this he seems to have reckoned without his host.

Because the Provincial Government had put into effect a fifty per cent cut in interest rates as from June 1st, 1936, thereby effecting some considerable saving, was the main reason why the Bank could not recommend assistance. Bank!

Are we wrong, or did the Bankers forget that this self same interest cut had been declared ultra vires by the Courts? Or are they relying on the validity of a subsequent Statute designed to effect the same purpose, but obviously open to the same objection? And did they point out how many had refused to accept the cut and are still looking to the Province to meet it's interest obligations in full?

In this instance, if this is politics, the Bank Officials have rather over-played their hand, and have laid themselves out to what prima facie seems to be a well-founded charge of plain discrimination.

YOUR TOWN

If I buy out of town, and you buy out of town, and everybody else buys out of town, what in H--- will become of our town.

The above presents a question which is seriously disturbing the minds of small town merchants throughout the Prairie Provinces today. Even admitting that there may be some things which the local merchant cannot in reason be asked to stock in quantities because of the danger involved (chief amongst which may be listed ladies clothing) it is true that today but little thought is given by the average resident as to exactly what benefit he may really derive in purchasing abroad, or little, if any, thought to the actual harm he may be doing.

If all the money which went out to mail order houses, plus that spent in shopping sprees in the city for the ordinary things which the local merchant can just as well supply, were spent in the local shops, it is certain that the merchant could then afford to carry the greater variety which the buying public demands.

It is clear that if the local merchant is not able to carry all the goods necessary to meet the needs of his public, by far the greater part of that inability lies straight at the door of the buying public itself.

LOCAL SPORT

It is a pleasure to observe the efforts being made in this community by the younger crowd along the lines of good clean sport.

Bassano during the winter season is rightly well-noted for the skill of it's youth with the hockey stick as to which visiting curlers from neighboring communities can testify.

This Spring has seen the baseball club revived, and a good, auspicious start made in the first competitive game with Makepeace.

The local Tennis Club has taken on a new lease of life, with probably the earliest start in actual play recorded, and the prospects are for a season of great activity around the West end.

Both of these clubs are led by young men who are merely seeking ways and means to create out-lets for the natural desire for sport inherent in the breast of any decent, healthy boy or man. We wish both clubs the very best of luck and good fortune, while at the same time warning them to expect reverses and discouragements, which when they do arise must be overcome.

THE COCKROFT STATEMENT

Since August 1935 there has been much criticism of the Aberhart Government in the Assembly, in the columns of the press, and elsewhere, some of it serious, and a lot of it mere piffle; some of it funny and the rest just silly.

A week ago Charles Cockroft, former Provincial Treasurer, issued and published to his constituents a signed statement, including his reason for resigning from the Cabinet.

Apart from the propriety of a former Cabinet Minister publishing such a statement (the responsibility for which lies squarely on the shoulders of Mr. Cockroft) the statements are so serious that they cannot be dismissed merely because Mr. Cockroft should not have made them, having been sworn to secrecy.

Mr. Aberhart has not, as yet, either affirmed or denied the truth of the charges laid at his door by his former Minister. Sooner or later he must do one or the other. It is simply not good enough to say that Mr. Cockroft violated his oath of office.

If they are not true they should be denied promptly and without any equivocation or quibbling over the meaning of words, and a show down called for between these two men.

If they are true, then we suggest that it is time the Premier learned just what a sinking fund really is and how it must be treated.

BEACONS BURN ACROSS CANADA CELEBRATIONS DAY

Montreal—Brightly burning beacons across the length and breadth of Canada will, in an all-star style, signal the crowning of a King on May 12th.

This unique feature in connection with the Coronation of His Majesty King George VI will be handled by the Boy Scouts of Canada, according to information told by Sir Edward Healey, G.B.E., K.C., L.L.D., President of the Canadian General Council of the Boy Scouts Association.

Calling to Scout leaders to take initiative in organizing celebrations on the occasion of the Coronation of His Majesty, who is Scout King of 45,000 Canadian Boy Scouts, Sir Edward recalled the more successful coast-to-coast beacon chain in 1935 marking the Silver Jubilee of the late King George V. It was the first time that an organized beacon celebration on such a scale was ever attempted in Canada and was such a splendid success, due to the interest shown in the event by the Scouts and the general public.

As public celebrations will likely be largely to municipalities, Boy Scouts will again have opportunity to show on a large scale that their organization is one of Canada's important public service bodies, whose training produces young and older citizens of public spirit and enterprise.

Details of the Boy Scout participation in the Canadian Coronation celebrations have not yet been completed.

It is understood, however, that the celebration will follow along lines similar to those which proved so successful on the occasion of the Silver Jubilee of His late Majesty, King George V. It is proposed that where Civic Committees have already been appointed for local celebrations, Scout Leaders should approach them and

offer their close co-operation. In localities where no celebrations have been planned, Scouts will in all probability take the initiative and seek the aid of civic authorities or bands of other organizations in planning appropriate celebrations.

In arranging the coast-to-coast beacon fires, Scout Leaders will again select coastal headlands, mountains, or hillsides for sites, and the message of loyalty will be carried from the West to the East, and from the international boundary to the Arctic Circle.

Drop from tablespoon into well greased pan, 3 inches apart. Bake in slow oven.

Heavy and Cheese
Add honey to cream cheese or grated hard cheese to spread easily.

Natural Drops

3 cups oatmeal
2 cups flour
2 cups brown sugar
1 cup tallow (suet and chopped)
1 tsp. cinnamon
1 cup melted butter
2 eggs (well beaten)
1 tsp. soda dissolved in
1 cup sour milk

Mix all dry ingredients together, then add other materials. Drop by spoon on greased tin and bake in moderate oven. One cup walnut meat may be added if desired.

Drop Tea Cakes—

6 cups flour
1 cup sugar
1 cup butter
1 cup lard
1 cup curran
1 egg
1 tsp. baking powder
pinch of salt
2 tsp. baking powder

Mix altogether with milk enough to make a stiff batter. Drop into buttered pans and bake in quick oven.

POACHED EGGS

Poach the eggs in milk instead of water, and it will make them far more nourishing. This is particularly good for a sick person.

RENOVATING GLOVES

When black kid gloves have become shabby or rusty, they can be renovated by using a few drops of black ink in the same quantity of olive oil to darken the worn spots. Apply with a soft brush.

Bassano Municipal Hospital

DISTRICT No. 6

NOTICE

A New Ruling made by the Board of this Hospital on March 6th, 1937—

"On and after the first day of May, 1937, an advance payment of at least five dollars must be made by all maternity patients on, or before, admission to hospital."

This Ruling applies to maternity cases only.

THEY

Advertise!

A hen is not supposed to have
Much common sense or tact.
Yet every time she lays an egg
She cackles forth the fact.

A rooster hasn't got a lot
Of intellect to show,
But none the less most roosters have
Enough good sense to crow.

The busy little bees they buzz,
Bulls bellow and cows moo,
The watch dog barks, the gander
quacks,
And doves and pigeons coo.

The peacock spreads his tail and
squeals,
Pigs squeal and robins sing,
And even serpents know enough
To hiss before they sting.

But man, the greatest masterpiece
That nature could devise,
Will often stop and hesitate
Before he'll advertise.

REMOVING OLD WALL PAPER

An excellent method for removing old wall paper is to put a "heaping tablespoon" of saltwater into each can of hot water and apply liberally with a brush. Keep the water hot, and after a few applications the paper will be pulled from the wall readily.

PAINTED WOODWORK

Boil two or three pounds thoroughly, and the water in which they are boiled will clean painted woodwork very effectively. No soap is required.

THE KITCHEN KNIVES

Never use the bread or the meat knives where there is intense heat, as the heat will temper the cutting edges.

The SNAPSHOT GUILD

BE A PHOTO HISTORIAN

The story of our times is being told for the next generation by amateur photographers who take and preserve scenes of present-day life, such as this.

DID I ever occur to you that as the owner of an amateur camera you are blessed with the means of making a reliable and true significant record of the times in which you live? Magazine, newspaper, newspaper, and other professional photographers are doing just that every day and a vast store of pictorial history is accumulating.

Thanks to the progress and spread of photography our descendants are going to know much more about the way we lived and acted than we know of the way our great-grandfathers did. Through these millions of photographs of life and action now being taken our descendants will possess visual evidence of the things we did, how we dressed, how life went on in city and country. Contrast the advantage they will have over this generation which has to rely upon the descriptions of writers and the work of artists for the introduction of photography scarcely now, than two generations ago. However accurate the work of writers and artists may be, it cannot equal the reality and truthfulness of photography.

We amateur photographers, now millions strong in every country, are also making a tremendous contribution to this photographic record of our time. Few of us, however, are doing it by design. Most of us take pictures for the present amusement of ourselves, families and friends with not so much thought to their value and interest to our children's children. Two of us take pains to preserve the pictures we take.

Well, what do you say to the idea

of becoming a photographic historian for the benefit of your own posterity? This you can do effectively even on a small scale. It simply means making a collection of pictures, setting by yourself, best representing the life, customs, dress and activities of the present day and placing them in a special album to keep and hand down as a family possession. Some of these pictures will seem commonplace now, but as interesting and valuable forty or fifty years hence as those of the "pay picture" are to us.

Subject subjects which in your judgment are most typical of the current scene. Certainly you should not neglect to include your own home life, street scenes and other views about your changing city, the homes of the rich and the homes of the poor, life in the country and present types of automobiles, airplanes, railroad trains and other things in general on which today stand modern life and tomorrow will be obsolete.

You should not fail to include old-fashioned snapshots of people doing things that are pictures of common life—what the artist calls "genre pictures." Make your camera your companion especially in traveling and be ready for them. For example, a shot of your car window of a scene on the platform of a railroad station may seem ordinary enough today but it is a sample of common life. You know the picture will be a curiosity. The modern scene is constantly changing and this photography which can show so truly after a lapse of years what these changes have been.

John van Guldert.

IS IT TRUE
By the Cub Reporter

That John Brown was recently heard expressing himself on the subject of "Sisterly Love"? — Providing it is somebody else's sister, John Brown, while exhibiting his talents as a court of youthful admirers nearby, was left holding the "empty" bucket one night this week. Out on the witness stand Jordan.

That two young ladies (Ocell and Sally) have been seen around the tennis courts a lot lately. Must have heard something about "love-acts" or something.

That Allan Yule was seen struggling up market street the other day with quite a jump. We wonder if there is any connection between this and his umpiring of the ball game on Sunday.

That Roy Colwell was heard around the Haverford Office one morning insisting that Floyd Cary's name be mentioned in this Column. What for Roy?

That Harry Holmes Jr. was seen assisting his father on McKee's roof on Tuesday afternoon. Someone mentioned something about keeping time—last night Harry?

Four early birds, "Mac West," "Osgood," "Sherlock" and "Standish" were seen decorating the Tenra County Jail Wednesday morning. These girls anticipate displaying gaudy form in the near future—so Mac says.

That a certain young lady school teacher thought something had happened to her car when she saw a coupe parked behind it in a certain drive-way at the east end of town on Tuesday night?

HOW TO MAKE CEMENT FOR IVORY

A cement for mending an ivory article can be made by melting together equal parts of gutta percha and ordinary pitch. Warm the pieces that are to be united before fastening.

In the Garden

By J. Bacon

This is the first in a series of articles dealing with the care and planting of flowers and vegetables. Gardens should be deeply plowed or dug, and liberally enriched with manure, and the seed bed should be

worked fine and should be well raked.

Peas, beans, carrots, turnips, parsnips, onions and onion sets can be planted now, but beans, lettuce, radishes should be planted later when danger of frost is gone.

Lettuce and radish should be planted between rows of turnips and parsnips to conserve space.

Very few flowers should be planted now, but sweet peas should be planted immediately.

Sweet William, Pinks, and other perennial plants can be transplanted now to bloom in the fall.

Helpful Hints—Cut flower stems a little each day and use fresh water. This will keep them longer.

Good and reliable seed produces better plants, and local grown seed will produce better plants than seeds from other parts of Canada.

House plants should be watered from the bottom.

Scouts began deals with the usual Physical Training. Some of the Scouts seemed to be in perfect form. Maybe this was due to the fact that two or three female youths were watching them. After this training, signalling exercises were performed. The boys were informed that they would soon have to take their signalling and first aid tests. After this bit of news, Assistant Scoutmaster Calbeck took the troop for a few minutes of first aid instruction, and then dismissed them.

Amateur Scout's Map Test

A test of the route which he passed in an ambulance was one of the "Pathfinder" tests passed by Scout Frank McCarthy of the Robert Johnston Scout Troop of the city.

Scoutmaster, Old Stick Children's Hospital, in completing his qualifications as a First Class Scout, Frank, who hails from Port Erie, Ont., was the fourth member of this troop of handicapped boys to successfully complete the Scout's First Class Test.

Frank, making and cooking tests are passed at "camps" held on the grounds of the institution.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANY IN CANADA

TONSILS AND ADENOIDS

Is the removal of tonsils and adenoids a recently devised operation? As a matter of fact it is one of the earliest surgical operations, dating back at least to China's A.D. 10. We have been told that in one of the eastern countries the tonsils are removed from every infant. A slip knot is formed from a piece of horsehair and placed around the tonsil. The slip knot is then pulled tight and the tonsil is cut off and removed. These people have great belief in the value of this operation and to it they ascribe the great stature of their men.

In Canada, however, only forty years ago a child whose tonsils had been removed was a rarity, but now when every school child receives medical supervision this operation is very common. Well may a thinking parent find it difficult to believe that there is need for such a wide spread attack on a structure of the body.

Of what good are the tonsils? Does their removal do any harm? Surely they have been given to us for a purpose?

The tonsils and adenoids are a kind of tissue which grows in the throat to protect us against the spread of germs, but only as long as it is a healthy tissue in its protective.

The portion of tonsils and adenoids really exposes them to infection and often they become harborers of poisonous materials. Therefore, the removal of these damaged and harmful pieces of tissue will not be any loss to the defenses of the body. It is, as statistics show, a great benefit to the children as a whole, even if it is a little more than a nuisance.

Worked fine and should be well raked. Peas, beans, carrots, turnips, parsnips, onions and onion sets can be planted now, but beans, lettuce, radishes should be planted later when danger of frost is gone.

Lettuce and radish should be planted between rows of turnips and parsnips to conserve space.

Local and Personal Notes

Mrs. Storance spent a few days in Calgary this week.

Mrs. Lawie and son Chester, spent the week-end visiting in Calgary.

Mrs. Jack Summerville and Bobby spent the week-end in Calgary.

Mrs. L. Conn and her mother spent the week-end in Calgary.

All citizens are asked to clean up their yards and decorate their premises for Decoration Day.

Mrs. T. Hunter of Medicine Hat is visiting for a few days at the home of Mr. and Mrs. H. T. Johnson.

Radio licenses are now due and may be obtained at the local Post Office.

Mrs. J. H. Bille and the twins, Billy and Bobby, spent the week-end in Calgary.

Mr. George Scott has returned from Edmonton, where he attended the University of Alberta.

Mr. and Mrs. J. Hamble and family have moved to the Miller farm for the summer months.

Mr. H. Eastman has taken over the duties as Traveller for the Alberta Pacific Grain Co. and expects to move his family to Bassano shortly.

Among those who visited Calgary last week-end were Mrs. Barlow, Mrs. Lawie, Misses Winifred and Florence Playfair, and Miss Grace Scheer.

Miss Betty Johnston is expected home shortly. She spent several months in Vancouver, and at present is visiting relatives in Calgary.

Mr. and Mrs. M. Connolly of Calgary were visiting over the week-end with the latter parents, Mr. and Mrs. J. Johnston.

The Coronation Committee asks all citizens of Bassano to co-operate by displaying some form of patriotic decoration on their premises on May 12.

Mr. and Mrs. Jennie Hamilton and son have taken up residence in Bassano after spending the winter in Drumheller.

Mr. Russell Bassano has returned from Queens University, Kingston, Ont., where he attended for several months.

Mr. and Mrs. Martin of Red Deer returned to their home on Friday after visiting for a short while with their daughter, Mrs. Snape, in town.

Special Coronation Church Services will be held in the Church of England on May 12. This is in the form of a joint Service between the Churches of Bassano.

While passing through town on Sunday, the Greyhound, Bow, Plow took fire from an overboard 1st-oc. After extinguishing the blaze, the driver continued his journey to Calgary.

Word has been received in Bassano by the Coronation Committee from several or eight of the surrounding schools stating their intention to have a representation at the Bassano Coronation Celebration on May 12th.

Mr. R. G. Ady of the Imperial Coffee Shop returned the last of last week from a visit with relatives in Dauphin, Man. Since arriving home he has received word of the death of his mother at that point.

Mr. Stephens, of the Department of Agriculture, Edmonton, will be at the office of the A. P. Grain Co., Bassano at eleven o'clock Saturday, May 12, to meet some of the farmers. Anyone wishing to discuss farm problems is invited to meet Mr. Stephens.

HUSAR GIRLS BASKETBALL

TEAM MEET DRUMHELLER

Husar, April 25th—On Saturday evening the Husar High School basketball team met the Drumheller High School team, and the Husar Girls were defeated by a score of 18 to 10, in spite of being on home ground. The referee was Roy Schofield, and the time keeper was Glen Treacy and scorer, Emerson Brown. The Husar Girls playing were: Alma and Olga Will, Evelyn and Josephine Holland, Ruth Brown, Jane Dundas and Evelyn Gustafson. The Drumheller players were: Owen Diley, Mary McKenzie, Margaret Brown, Claudine Smiley, Mary Rawlins, Eleanor Kidd, Marlin Neville, Frances Murray and Mary Flegar. They were accompanied from Drumheller by Mr. and Mrs. Smiley, Miss O'Neil, Gordon Taylor and Mr. Rawlins.
